Any cost related to construction — including building renovations — cannot be funded under this RFA, whether through the grant or as part of the one-to-one cash contribution. MSP defines construction costs as the construction, alteration, rehabilitation, improvement, or repair (including dredging, excavating, and painting) of various structures or facilities. This may include agricultural facilities, such as irrigation systems or other improvements, markets, warehouses, or other types of buildings, roads, bridges, and collection sites. MSP can fund activities such as environmental assessments, building design, and feasibility assessments for construction projects.
